TUFTS Health Plan

Tufts Health Together
Pharmacy program and Preferred Drug List
April 1, 2021

Introduction

Pharmacy program

We aim to provide high-quality, cost-effective options for drug therapy. We work with your health care providers and pharmacists to make sure we cover the most important and useful drugs for a variety of conditions and diseases. We cover both first-time prescriptions and refills. We also cover some over-the-counter (OTC) drugs if your provider writes a prescription and it is filled at a pharmacy.

Our pharmacy program doesn't cover all drugs and prescriptions. Some drugs must meet certain clinical guidelines before we can cover them. Your provider must ask us for prior authorization before we'll cover these drugs.

Preferred Drug List (*PDL*)

We list all drugs according to their therapeutic category and drug class followed by generic or brand drug name. Use the index to find a drug according to its generic or brand name. We cover brand-name medications only when a generic medication is not available or if we give prior authorization for the brand-name drug.

With a doctor's prescription, covered drugs are available to members under the age of 21 for FREE, and to members age 21 and older with a small co-payment. Some members age 21 and older do not need to pay the co-payment. To find out if you do not need to pay a co-payment, see your *Member Handbook*.

Co-payments:
Most members who are age 21 and older must pay the following pharmacy co-payments:

- $1 for certain covered generic drugs mainly used for diabetes, high blood pressure, and high cholesterol. These drugs are called antihyperglycemics (such as metformin), antihypertensives (such as lisinopril), and antihyperlipidemics (such as cholestyramine).
- $3.65 for certain over-the-counter (OTC) drugs for which you have a prescription from the doctor
- $3.65 for both first-time prescriptions and refills for certain covered generic and OTC drugs
- $3.65 for both first-time prescriptions and refills of certain covered brand-name drugs

The *PDL* applies only to drugs you get at retail and specialty pharmacies. The *PDL* doesn't apply to drugs you get if you're in the hospital. Drugs you get while in the hospital are covered as part of your stay.

For the most current *PDL* coverage information, please visit tuftshealthplan.com or call us at **888.257.1985** (TTY: 888.391.5535).

Prior authorization (PA)

Some drugs always require prior authorization, which means your provider must ask us for approval before we'll cover the drug. One of our clinicians will review this request. We'll cover the drug according to our clinical guidelines if:

- There is a medical reason you need the particular drug
- Depending on the drug, other drugs on the *PDL* have not worked

If we don't approve the request for prior authorization, you or your authorized representative, if you identify one, can appeal the decision. See your *Member Handbook* for our member grievances and appeals information.

Step therapy program (STPA)

We cover some types of drugs only through our step therapy program. Our step therapy program requires you to try first-level drugs before we'll cover another drug of that type. If you and your provider feel a certain drug isn't appropriate for treating your health condition, your provider can ask us for prior authorization for the other drug. One of our clinicians will review the request. We'll cover the drug according to our clinical guidelines. If we don't approve the request for prior authorization, you or your authorized representative, if you identify one, can appeal the decision. See your *Member Handbook* for our grievances and appeals information.

Quantity limit (QL)

To make sure the drugs you take are safe and that you are getting the right amount, we may limit how much you can get at one time. Your provider can ask us for prior authorization if you need more than we cover. One of our clinicians will review the request. We'll cover the drug according to our clinical guidelines if there is a medical reason you need this particular amount. If we don't approve the request for prior authorization, you or your authorized representative, if you identify one, can appeal the decision. See your *Member Handbook* for our grievances and appeals information.

Generic drugs

Generic drugs have the same active ingredients and work the same as brand-name drugs. When generic drugs are available, we won't cover the brand-name drug without giving prior authorization. If you and your provider feel a generic drug is not right for treating your health condition and that the brand-name drug is medically necessary, your provider can ask for prior authorization. One of our clinicians will review the request. If we don't approve the request for prior authorization, you or your authorized representative, if you identify one, can appeal the decision. See your *Member Handbook* for our grievances and appeals information.

New-to-market drugs (NTM)

We review new drugs for safety and effectiveness before we add them to our *PDL*. A provider who feels a new-to-market drug is medically necessary for you before we've reviewed it can submit a request for prior authorization. One of our clinicians will review this request. If we approve the request, we'll cover the drug according to our clinical guidelines. If we don't approve the request, you or your authorized representative, if you identify one, can appeal the decision. See your *Member Handbook* for our grievances and appeals information.

Coverage limits

The Requirements/Limits column in the *PDL* shows when a drug has a certain requirement or limit for coverage. Coverage limits include:

- AGE — Age restriction may apply
  This medication requires prior authorization if the drug is not covered based on your age. Your provider should send us a prior authorization request if the drug is medically necessary.
- PA — Prior authorization
  This medication requires prior authorization. Your provider may prescribe a different medication on the *PDL* or send us a prior authorization request.
- QL — Quantity limit
  This medication is limited to a specific amount. If a larger amount is medically necessary, your provider should send us a prior authorization request.
- SP — Specialty medication
  This medication is only available through our specialty pharmacy vendor, CVS/specialty.
- ST — Step therapy
  This medication requires prior authorization if you have not already used a first-line medication on the *PDL*. Your provider may prescribe another medication on the *PDL* or send us a prior authorization request.

Medicare Part D

If you have Medicare coverage, your Medicare prescription drug coverage (Part D) plan will cover most of your prescription drugs. You should have a separate ID card for your Medicare prescription drug coverage. Please show your pharmacist your Medicare Part D ID card when you fill a prescription.

Even if you have Medicare Part D, we'll cover some drugs, such as select OTC drugs. The co-payment amounts and exceptions still apply to these covered drugs. For more information, please call us at **888.257.1985** (TTY: 888.391.5535). You can also find out more about your Medicare prescription drug coverage by calling Medicare at 800.633.4227 (TTY: 877.486.2048), visiting Medicare's website at medicare.gov, or referring to your *Medicare and You* handbook. Remember to carry all your ID cards with you when you go to the pharmacy. When you fill a prescription, please show both your *Tufts Health Together* and MassHealth member ID cards, as well as your Medicare Prescription ID card.

Specialty pharmacy program

A specialty pharmacy needs to supply you with some drugs often used to treat chronic conditions like hepatitis C or multiple sclerosis. These types of drugs need additional expertise and support. Specialty pharmacies have knowledge in these areas. These pharmacies can give extra support to members and providers.

CVS/specialty is our specialty pharmacy and can provide you with these drugs. In addition to providing specific specialty drugs, CVS/specialty will:

- Deliver drugs to your home, provider's office or any delivery address you choose (except for a P.O. box)
- Answer your questions and offer help with your drugs
- Give you information, materials and ongoing support to help you manage your health condition and make sure you take your drugs the right way
- Have staff pharmacists available who can help you 24 hours a day, seven days a week, at 800.237.2767

Synagis

Every year from November 1 to March 31, CVS/specialty will supply *Tufts Health Together* members with Synagis, which is used to prevent serious respiratory disease caused by respiratory syncytial virus (RSV). We will review requests for Synagis according to the most recent American Academy of Pediatrics guidelines.

Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Tufts Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Tufts Health Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:

— Written information in other formats (large print, audio, accessible electronic formats, other formats)

- Provides free language services to people whose primary language is not English, such as:

— Qualified interpreters

— Information written in other languages

If you need these services, contact Tufts Health Plan at 888.257.1985.

If you believe that Tufts Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

Tufts Health Plan

Attention: Civil Rights Coordinator, Legal Dept.
705 Mount Auburn St.
Watertown, MA 02472
Phone: 888.880.8699 ext. 48000, [TTY number— 711 or 800.439.2370]
