What is the Virginia Premier Individual Plans' Formulary?

A formulary is a list of covered drugs selected by Virginia Premier Individual Plans (Virginia Premier) in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Virginia Premier will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Virginia Premier network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Age Limits:** Virginia Premier limits the ages around certain drugs. This means that you [or your physician] will need to get approval from Virginia Premier before you fill your prescriptions if you are not within the ages limit. If you don't get approval, Virginia Premier may not cover the drug.
- **Gender Restriction:** Virginia Premier restricts certain drugs to gender specific. This means that you [or your physician] will need to get approval from Virginia Premier before you fill your prescriptions if you are not within the gender specific guidelines. If you don't get approval Virginia Premier may not cover the drug.
- **Prior Authorization:** Virginia Premier requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from Virginia Premier before you fill your prescriptions. If you don't get approval, Virginia Premier may not cover the drug.
- **Quantity Limits:** For certain drugs, Virginia Premier limits the amount of the drug that Virginia Premier will cover. For example, Virginia Premier provides 30 capsules per prescription for Linzess Oral Capsules 72 MCG. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Virginia Premier requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Virginia Premier may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Virginia Premier will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site at www.virginiapremier.com/individual-family.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services at 833-672-8075 and ask if your drug is covered. If you learn that Virginia Premier does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Virginia Premier. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Virginia Premier.
- You can ask Virginia Premier to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Virginia Premier Formulary?

You can ask Virginia Premier to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Virginia Premier limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Virginia Premier will only approve your request for an exception if the alternative drugs would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

If there is a restriction for your drug, it usually means that you or your provider will have to take extra steps in order for us to cover the drug. If you want us to waive the restriction for you, you will need to use the coverage decision process and ask us to make an exception.

You should contact us to ask for an initial coverage decision for a formulary, tier, or utilization restriction exception. **When you request a formulary, tier, or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.**

Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

For more information about how to request a coverage determination visit our Web Site, www.virginiapremier.com/individual-family or contact our member services at 833-672-8075.

How Much Will My Prescriptions Cost?

Your pharmacy benefit and the medications listed in the formulary are assigned a "TIER." There are six (6) tiers in the Formulary. Generally, the higher the "TIER," the higher your cost will be. Carefully review your Schedule of Cost Shares and Benefits to ascertain if you have a pharmacy benefit and/or any pharmacy benefit limitations.

- **Tier 1 (Preferred Generic)** drugs have the lowest co-insurance or co-payment. These drugs have the same ingredients as brand name drugs. To be FDA (government) approved, the generic drug must have the same active ingredient, strength and dosage (formulation) as the brand name drug.
- **Tier 2 (Non-Preferred Generic)** drugs have a higher co-insurance or co-payment than those in Tier 1. This tier may contain non-preferred generics. These drugs have the same ingredients as brand name drugs. To be FDA (government) approved, the generic drug must have the same active ingredient, strength and dosage (formulation) as the brand name drug
- **Tier 3 (Preferred Brand Name)** drugs have a higher co-insurance or co-payment than those in Tier 2. Formulary Preferred Brand Name drugs are those drugs listed which, due to clinical effectiveness and cost differences, are designated as “Preferred” on the formulary. These drugs are prescription drugs or medicines that have been registered under a brand or trade name by their manufacturer and are advertised and sold under that name.
- **Tier 4 (Non-Preferred Brand Name)** drugs have a higher co-insurance or co-payment than those in Tier 3. Non-Preferred Brand Name drugs are those drugs listed on the formulary as “non-preferred” due to lesser clinical effectiveness and cost differences. These drugs are prescription drugs or medicines that have been registered under a brand or trade name by their manufacturer and are advertised and sold under that name.
- **Tier 5 (Specialty)** drugs have a higher co-insurance or co-payment than those in Tier 4. Specialty drugs are prescription legend drugs within the formulary which:
 - Are only approved to treat limited patient populations, indications or conditions; or
 - Are normally injected, infused or require close monitoring by a physician or clinically trained individual; or
 - Have limited availability, special dispensing, handling and delivery requirements, and/or require additional patient support, any or all of which make the drug difficult to obtain through traditional pharmacies.
- **Tier 6 (Preventative)** drugs are available at a zero-dollar cost share if prescribed under certain medical criteria by your doctor.

How Can I Obtain My Prescriptions?

In most cases, your prescriptions are covered only if they are filled at the plan’s network pharmacies. A network pharmacy is a pharmacy that has a contract with the plan to provide your covered prescription drugs. The term “covered drugs” means all prescription drugs that are covered on our plan’s formulary.

For certain kinds of drugs, you can use the plan’s network mail-order services. Generally, the drugs provided through mail order are drugs that you take on a regular basis, for a chronic or long-term medical condition.

To find a network pharmacy, you may look in your *Provider & Pharmacy Directory*, visit our website (www.virginiapremier.com/individual-family), or call Member Services (phone numbers are printed on the back cover of this booklet).

You may go to any of our network pharmacies. If you switch from one network pharmacy to another, and you need a refill of a drug you have been taking, you can ask to have your prescription transferred to your new network pharmacy.

List of Abbreviations

Status

- **T1** = Tier 1 Preferred Generic
- **T2** = Tier 2 Non-Preferred Generic
- **T3** = Tier 3 Preferred Brand
- **T4** = Tier 4 Non-Preferred Brand
- **T5** = Tier 5 Specialty
- **T6** = Tier 6 Preventative

Notes

- **AL** = Must meet Age Limit
- **GR-F** = Gender Restriction (Female Only)
- **GR-M** = Gender Restriction (Male Only)
- **PA** = Prior Authorization
- **QL** = Quantity Limit
- **ST** = Step Therapy

Drug	Status	Notes
Adhd/Anti-Narcolepsy/Anti-Obesity/Anorexiant		
<i>amphetamine-dextroamphetamine oral capsule extended release 24 hour 10 mg, 15 mg, 20 mg, 25 mg, 30 mg, 5 mg</i>	T2	QL (30 EA per 30 days); AL (Min 6 Years and Max 17 Years)
<i>amphetamine-dextroamphetamine oral tablet 10 mg, 12.5 mg, 15 mg, 20 mg, 30 mg, 5 mg, 7.5 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>armodafinil oral tablet 150 mg, 200 mg, 250 mg, 50 mg</i>	T2	PA
<i>atomoxetine hcl oral capsule 10 mg, 100 mg, 18 mg, 25 mg, 40 mg, 60 mg, 80 mg</i>	T2	QL (30 EA per 30 days); AL (Min 6 Years and Max 17 Years)
<i>caffeine citrate intravenous solution 60 mg/3ml</i>	T1	
<i>caffeine citrate oral solution 20 mg/ml</i>	T1	
<i>caffeine-sodium benzoate injection solution 125-125 mg/ml</i>	T1	
DAYTRANA TRANSDERMAL PATCH 10 MG/9HR, 15 MG/9HR, 20 MG/9HR, 30 MG/9HR	T4	PA; AL (Min 6 Years and Max 17 Years)
<i>dexmethylphenidate hcl er oral capsule extended release 24 hour 10 mg, 15 mg, 20 mg, 25 mg, 30 mg, 35 mg, 40 mg, 5 mg</i>	T2	QL (30 EA per 30 days); AL (Min 6 Years and Max 17 Years)
<i>dexmethylphenidate hcl oral tablet 10 mg, 2.5 mg, 5 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>dextroamphetamine sulfate er oral capsule extended release 24 hour 10 mg, 15 mg, 5 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>dextroamphetamine sulfate oral tablet 10 mg, 5 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>diethylpropion hcl er oral tablet extended release 24 hour 75 mg</i>	T1	
<i>diethylpropion hcl oral tablet 25 mg</i>	T1	
<i>doxapram hcl intravenous solution 20 mg/ml</i>	T1	
<i>guanfacine hcl er oral tablet extended release 24 hour 1 mg, 2 mg, 3 mg, 4 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>methamphetamine hcl oral tablet 5 mg</i>	T1	AL (Min 6 Years and Max 17 Years)
<i>methylphenidate hcl er (cd) oral capsule extended release 10 mg, 20 mg, 30 mg, 40 mg, 50 mg, 60 mg</i>	T2	QL (30 EA per 30 days); AL (Min 6 Years and Max 17 Years)
<i>methylphenidate hcl er (la) oral capsule extended release 24 hour 20 mg, 30 mg, 40 mg, 60 mg</i>	T2	QL (30 EA per 30 days); AL (Min 6 Years and Max 17 Years)
